FRONT RANGE
COMMUNITY COLLEGE

Concurrent Enrollment Program Information

Front Range Community College is excited to partner with your district to offer opportunities for students to take college classes while still in high school. Concurrent enrollment enables students to earn college credit, along with high credit, for FRCC courses at no tuition cost to them. All courses are college-level and students are expected to meet college-level academic expectations. Students may be responsible for the cost of textbooks, fees, and/or course materials.

Students select courses that align with their Individual Career and Academic Plans (ICAPs). Whether exploring career and technical pathways or taking general education or transfer courses, FRCC Concurrent Enrollment can help you get a jump start on your future!

WHAT COURSES CAN I TAKE?

FRCC offers over 200 degree and certificate programs to help you meet your personal goals. For a complete list of programs, please visit www.frontrange.edu/programs-courses/. Many FRCC courses are **guaranteed to transfer to all public institutions** of higher learning in Colorado. Visit www.frontrange.edu/student-experience/transfer-planning/for more information about the Colorado guaranteed transfer program.

HIGH SCHOOL SELECT

High School Select Classes are taught at your local high school for college credit

CAMPUS SELECT

Take college courses for both high school and college credit at an FRCC campus

TREP

TREP is a fifth- and sixth- year high school program for future educators where approved students take courses on the FRCC Campus

Concurrent Enrollment Program Information

HIGH SCHOOL SELECT

High School Select is a concurrent enrollment program that offers high school students the opportunity to take FRCC classes at their home high school, earning both college and high school credit. The school district covers tuition, and there are no associated fees.

The classes offered depend on your school district and the high school you attend. FRCC collaborates with school districts and high schools to determine the courses that will be offered at each individual high school.

CAMPUS SELECT

Students enroll in classes at the FRCC campus with other FRCC college students. These classes are taught at the college level, and students are expected to meet all college-level expectations. Students are expected to select courses in consultation with their high school counselors, following their Individual Career and Academic Plan (ICAP). The FRCC Concurrent Enrollment Department can also assist students in choosing courses.

Contact your counselor if you are interested, or visit https://www.frontrange.edu/concurrent-enrollment/lc/programs/campus-select/ for more information on the steps to participate.

TREP

TREP is a fifth- and sixth-year high school program for future educators that lets eligible seniors take education pathway courses on the FRCC campus after their 12th grade year. Students are approved for the TREP program through their school district. Tuition is covered by the school district—check with your district to see if students are responsible for books and fees. Talk to your counselor to find out eligibility requirements and steps to participate.
