

FuturesLAB

Powered by PSD Schools

Futures Lab is a PSD program that offers unique, hands-on learning experiences to complement learning at a student's home campus.

Courses at the Lab support college and career readiness by allowing students the opportunity to deepen their learning, develop in-demand career skills, and earn industry-recognized credentials so they graduate prepared to succeed in a changing world.

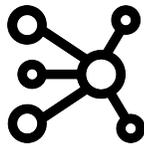

Design Principles

Our Design Principles reflect the mission and vision of Futures Lab, supporting a consistent experience for all learners.

AUTONOMY

Learning is self-directed, with student ownership of path and product.

CONNECTION

Learning connects concepts, skills, and people in novel ways.

AUTHENTIC WORK

Learning creates value in the world outside the classroom walls.

DEEP LEARNING

Learning is an iterative process that is immersive, complex, and messy.

Get Involved

Futures Lab offers a zero-barrier experience for our learners that is made possible by the generous support of the PSD Foundation and other partners. We welcome collaboration and partnerships with public and private entities in our community interested in fostering the growth and development of our pathways. For more information on partnering with our team, visit our website and click on "Support the Lab."

2021-2022 Pathways

Audio Production & Management

Aviation

Business Incubator

Coding

Culinary & Hospitality*

Design Thinking

Multimedia Technology*

Networking & Cybersecurity*

Teacher Education*

*Pathways with a * run for the full year.*

Futures Lab pathways are available to **any PSD high school student**. Learners remain enrolled at their home campus and spend a half-day at the Lab. Each pathway earns at least 15 credits, including 5 in Language Arts. Several pathways include additional core credit. Students may enroll in up to 5 additional credits each semester for a total of 20 possible credits in a semester.

Morning Session: 9:15 - 12:15

Afternoon Session: 12:45-3:45

Transportation is available to/from a student's home campus.
